To show you better ads, we use data that advertisers and other partners provide us about your activity off Facebook Company Products. We offer several ways to control the ads you see based on your activity off of Facebook.
Our **Ads based on data from partners** setting in your ads preferences can give you more control over this activity. It controls whether we show you ads based on your use of websites and apps off Facebook Company Products, and it also controls ads based on data we receive from partners about your offline activity. You can review these choices at any time.

To view your ad settings based on data from partners:

New Facebook

1. Click in the top right of Facebook.
2. Select **Settings & Privacy** > **Settings**.
3. Click **Ads** in the left sidebar.
4. Below **Ad Settings**, click **Ads based on data from partners** and review your choice in this setting.

Classic Facebook

1. Click at the top right of Facebook and select **Settings**.
2. Click **Ads**.
3. Scroll down and click **Ad settings**.
4. Click **Ads based on data from partners** and review your choice in this setting.

Why does Facebook limit the use of certain features and what are the limits?

We have limits in place to prevent abuse of our features and to protect people from spam and harassment. For example, if someone is sending out a bunch of messages to people they aren't friends with, they may be warned or temporarily blocked from sending messages.

Account Info

Can I create multiple Facebook accounts?

Facebook is a community where people use their authentic identities. It's against the Facebook Community Standards to maintain more than one personal account.

If you want to represent your business, organization, brand or product on Facebook, you can use your personal account to create and manage a Page. Keep in mind that a personal profile is for non-commercial use and represents an individual person. Learn more about converting your profile to a Page.

If you're using your profile to represent something other than yourself, you can convert it to a Page. If you're a public figure, learn about allowing followers.

If you have 2 or more accounts, learn how to move your information into a single account. You can also add another name (ex: maiden name, nickname, former name) to your account.

    - If you make a purchase on Facebook, we may earn a commission or transaction fee from that activity.
    - You can also make purchases through Facebook for games, apps and other items.

Note: Facebook doesn't sell your information, and we don't share information that personally identifies you (information such as your name or email address that by itself can be used to contact you or identifies who you are) unless you give us permission.

Intellectual Property

Facebook is committed to helping people and organizations protect their intellectual property rights. The Facebook Terms of Service do not allow posting content that violates someone else's intellectual property rights, including copyright and trademark.

Copyright

Copyright is a legal right that seeks to protect original works of authorship (example: books, music, film, art). Generally, copyright protects original expression such as words or images. It does not protect facts and ideas, although it may protect the original words or images used to describe an idea. Copyright also doesn't protect things like names, titles and slogans; however, another legal right called a trademark might protect those. Learn more about reporting copyright violations.

Trademark

A trademark is a word, slogan, symbol or design (example: brand name, logo) that distinguishes the products or services offered by one person, group or company from another. Generally, trademark law seeks to prevent confusion among consumers about who provides or is affiliated with a product or service. Learn more about reporting trademark violations.
